### How do I submit an article?

Gaining access to the private area is a three step process and should only take a couple of minutes. Follow the three simple steps below to submit articles, exchange links, pay for one way web links [optional] and gain access to member's downloads.

#### 1) Sign up for a new account.

The first thing to do is sign up for your free account. There should be a 'Register' link somewhere on this page? Registering for an account at Webraydian will allow you access to the article submission and private area.

#### 2) Activate your Free account.

After sending your information you should receive an email with a confirmation link. Click the link [or copy and paste into your browser's address bar] to activate your new account. Your username and password will be included.

#### 3) Login to Webraydian.

Do I need to say it? There's a 'Login' link somewhere around here. Click on it and type in your username and password and press the Login button.

- Register  
here

- Login  
here

Thank you and enjoy,

Ray Gilman
