Why can't I add my article?

This may be happening because you haven't been upgraded to an Author.

Your registration will need to be upgraded to Author before you can add content to this site. I'm normally on the ball and have this done within 24 hours or sooner [often sooner]. Please check back in about 24 hours to see if your account has been upgraded, and contact me if it hasn't. I look forward to having you as an Author at Webraydian.

Thanks,

Ray
